Framed prints

SINGLE AND MULTI-APERTURE FRAMES

Handmade solid wood frames in varying styles.

Single image frames with a decadent double mount finished with stunning ‘art glass’ which limits reflections and glare to the highest level.

Or choose a multi-aperture frame to include more than one of your gorgeous images, framed with the same double mount, solid wood frame and finished with stunning art glass.

For something completely unique, choose the ‘Fine art’ option and replace the glass and double mount with a matt-finish varnished print.

Example multi-aperture layouts 1
